As a marketing leader with nearly two decades in B2B SaaS, I fuse brand storytelling, market research, and performance marketing to fuel enterprise growth. My track record spans elevating brand equity (35% recall), increasing pipeline velocity (20-30% YoY), and reducing CAC by up to 50% through disciplined GTM strategies and customer experience optimization. By embedding operational rigor and a data-driven culture, I also bolster employer branding and retention (15-20% gains) across global organizations.

WORK EXPERIENCE

Vice President - Strategy & Marketing - Mynd Integrated Solutions :: *Aug 2024 – Present*
Part of the CEO's office (currently working as the Head of Marketing and Strategy functions)
